INDIA BRINGS HOME 100 TONNES OF GOLD FROM UK

RBI Brings Back 100 Tonnes Of Gold From Vault Of UK To India

आरबीआई ने ब्रिटेन की तिजोरी से 100 टन सोना भारत वापस लाया

- The Reserve bank of India brings **back 100 tonnes of Gold** from the **Vault of UK to India**.
- This is a major shift in the Economic Policy of the RBI, **as it will now hold most of its Gold in its own vault**.
- Most countries keep their **gold in the vaults of the Bank of England** or other such location and pay a fee for the privileges.
- At present, India has huge Foreign Exchange Reserves to cover up to 11 months of Imports.
- As of March 31, 2024, the total gold held by the Reserve Bank was **822.10 metric tonnes**

Why does RBI store its gold abroad?

- Historically, during the 1990-91 foreign exchange crisis, India pledged part of its gold reserves to the Bank of England to secure a \$405 million loan.
- Although the loan was repaid by November 1991, the RBI chose to keep the gold in the UK for logistical reasons.
- Gold stored abroad can be easily used for trading, entering into swaps, and earning returns.

- The RBI also **buys gold from international markets** and storing it overseas facilitates these transactions.
- Storing gold internationally **comes with risks, particularly during geopolitical tensions.**
- The **freezing of Russian assets by Western nations** has heightened **concerns about the safety of assets held abroad.**
